

EMSC April Competitive Update

Date: April 1, 2021

To: 2020/21 CDP & Competitive Members

CC: Staff, Board Members

From: Samantha Stewart, Business Manager

Subject: April 1st Announcement & Competitive Impact

Dear Eagles,

We wish the end of this update finished with “April Fools”, but unfortunately that is not the case. Like you, we received the update from the Premier today about the Emergency Break and what this means for our Province for the next four weeks. While necessary to help stop the spread and limit the impact of the third wave, it means that the City of Mississauga will no longer honour our permits for the month of April.

We recognize the impact this continued lockdown has had on both the club and the kids. The announcement made by the Premier last week had us working diligently to return to the pitch Monday, April 4th. The excitement in the office was palpable. This excitement has not been cut short, but rather pivoted to focus on our present capabilities. Therefore, the club will continue to offer virtual sessions & Google Classrooms for our members to utilize until we are able to safely return.

Our priority has and will always continue to be to ensure our Eagles are able to safely return to the pitch to reap the benefits soccer provides. This “Emergency Break” will not dampen our drive to provide that. Therefore, we will move forward with the Parent Town Hall this Saturday, April 3 at 11AM. We welcome you to register using this link below:

It is important to note that we are devoted to offering the best program for our Eagles that we can and will continue to be as transparent as possible with our members as we continue to soar towards the future together. Stay safe and we hope to see you this Saturday.

Best regards,

Samantha Stewart, *Business Manager*
