NEW FOR THIS SEASON TAILORED PROGRAMMING

Players for the upcoming season will have two team practices, followed by one practice of their choice, allowing them to fine-tune any skill they choose in our supplemental programs. The supplemental programs will be led by our Club Head Coach, providing players with a different perspective from our technical team. The players will be able to select from ball mastery, strikers school or soccer school, which focuses on players' all-around game. The plan this year will add more flexibility to scheduling and allow players to pick and choose what they love to do about soccer.
